

JPJ MASK

Antiprojection

Full face visor mask (*)

Designed and manufactured to protect employees from Covid-19

In order to protect their employees from Covid-19, French government has asked french industries to provide protections.

JPJ Mousse has therefore designed and manufactured a full face visor mask in its facilities located in Aillant sur Tholon / Burgundy. It is made of rigid foam and bears a transparent visor.

We are currently producing thousands of visors per week. There are 49 visors by box. You can buy them directly on our Website :

Splash protection

Provides a technical protective solution against droplet projections. It is made of a rigid foam base and includes a see-through (transparent) visor.

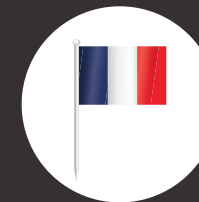

Light & comfortable

Foam is a durable and extremely light material. Visors are less than 60g which makes them very comfortable to wear.

Adjustable & washable

An adjustment system allows our visor to suit all head sizes. Our mask is washable with soapy water or alcohol and does not whiten..

Available & Made in France

Visor are available from stock and 100% made in france.

Who is JPJ MOUSSE ?

Created in 1989, JPJ mousse is a french industrial company specialized in custom foam cutting, working for the packaging industry and luxury sectors. Our facilities are 43000 Square feet, and based in Aillant sur tholon (burgundy-france)
